Ocean County Employs V-COMM to Develop Communications Plan

Toms River, NJ, February 2, 2004 – V-COMM, a leading New Jersey based telecommunications engineering firm, has entered into agreement with Ocean County, NJ to provide critical expertise in evaluating the county government’s communications system and developing a long-range plan for more effective and efficient growth in coming years. V-COMM is also working with Triad Associates of Dresher, PA to identify funding sources to help defray the cost of the project.

“Our job is to establish a world-class communications system for Ocean County and at the same time to explore options for reducing the cost. We are confident that we are up to the challenge,” said Dominic C. Villecco, president of V-COMM.

“By using an innovative funding strategy to access less common resources, Ocean County will get a quality communications system without passing the entire cost on to county residents,” said Michael Zumpino, president of Triad Associates.

V-COMM, a leading provider of integrate network engineering, radio frequency engineering and business services, delivers needed expertise and cost-effective solutions for wired and wireless operators and vendors. Company executives are much sought-after expert witnesses providing testimony on telecommunications issues in local, regional, national and international venues. V-COMM has a growing staff of over 50 engineers and professionals with offices in Cranbury, NJ and Blue Bell, PA. For more information, visit us on the World Wide Web at www.vcomm-eng.com.
