## **V-COMM PARTICIPATES AT TRANSIT WIRELESS LAUNCH EVENT TO CELEBRATE COMPLETION OF PHASE TWO OF NEW YORK CITY SUBWAY PROJECT**

**New York City (October 17, 2014)**—V-COMM, a leading New Jersey based telecommunications engineering firm, celebrated with Transit Wireless in launching the second phase of its New York City subway DAS network on Thursday, Oct. 16. Dominic Villecco, president and founder of V-COMM, represented the company at the event and received an award on behalf of V-COMM’s efforts as an implementation partner with Transit Wireless.

“The V-COMM team has become a great asset in augmenting our existing engineering team in a project this large and complicated,” said William A. Bayne, Jr., CEO of Transit Wireless.

V-COMM and Transit Wireless are currently working together to implement Phase 3 of the subway DAS network, creating more wireless-accessible stations in NYC.

“We’re proud to have been part of this project from the beginning and look forward to seeing this through to completion,” said Villecco.

To learn more about Transit Wireless Wi-Fi in the NYC subway, go to [www.transitwirelesswifi.com](http://www.transitwirelesswifi.com).

V-COMM is a leading provider of integrated network engineering, radio frequency engineering, and business services, with offices in Cranbury, New Jersey and Exton, PA. V-COMM delivers the needed expertise and cost-effective solutions to governmental agencies and wireless operators. V-COMM also provides design and design/build services for In-building, In-tunnel and other wireless telecommunications networks.
